It tells of a time when 'Heaven on Earth' is delivered and humankind moves to complete its evolutionary journey to achieve unity consciousness. Find out why the Earth is unique in the universe and the goal of human evolution from now to the birth of the coming 'Supra-human' being.</p>	<p><b>Extraterrestrial Guides: The Great White Brotherhood in the Andes &amp; Lake Titicaca</b>  <i>By Luis Fernando Mostojo (Bolivia) (110 mins - \$20)</i>  After having physical contact experiences with the "Amautas" (wise elders) from ancient cultures, and who now live in the Inner cities or underground cities of the Andes and Lake Titicaca, great revelations have been given to us by them. I have been fortunate and have had several physical encounters with the "Elders". I come as their emissary, bringing the message of hope and alternative ways to build a new civilization in times of change &amp; transformation.</p>
<p><b>The Science, Spirituality, and Politics of Extraterrestrial Civilizations</b>  <i>By Dr. Michael Salla [90 mins - \$20]</i>  A groundbreaking discussion of different extraterrestrial civilizations visiting Earth and interacting with humanity using a typology popularized by Prof Michio Kaku. Once we identify the way extraterrestrial civilizations use energy at a planetary, stellar &amp; galactic level, we can understand much about the technology they use, the spiritual principles they follow, and the political aspect of how they interact with humanity.</p>	<p><b>Extraterrestrials, Whales and US Navy Sonar Testing</b>  <i>By Joan Ocean, M.Sc. [90 mins - \$20]</i>  We've all heard about the plans to weaponize space, but what about our oceans? I became concerned when I noticed the U.S. Navy ships were using the Hawaiian Marine Mammal Sanctuary, birthing and mating areas of the Humpback whales for their testing of high decibel sonar. I will reveal to you my experiences of the lights in the ocean, the whales' messages, the Navy's intentions, &amp; a deep understanding of the ETs who also live on Earth &amp; freely navigate the oceans of the world.</p>
<p><b>Merkabah Encounters &amp; the Sacred Language of Light</b>  <i>By Victoria Liljenquist (90 mins - \$20)</i>  We are longing to return to that home within us. Over 250 pictographic images, ancient symbols, and Star Gate images revealing the Sacred Language of Light are projected from a spectacular 10-pronged Merkabah Vehicle.</p>	<p><b>Human Devolution: A Vedic Alternative to Darwin's Theory</b> - <i>By Dr. Michael A. Cremona (90 mins - \$20)</i>  Where did human beings come from? Today the most common answer is Darwinian evolution. I am not satisfied with that answer, and therefore I am proposing an alternative based on the Vedic literature of ancient India. This Vedic alternative is part of a larger family of spiritual alternatives to Darwinism. Instead of evolving up from matter, the conscious self devolves or comes down from a level of pure consciousness, and becomes covered by the lower energies of mind and matter. This process I call devolution.</p>
<p><b>Spiritual Messages &amp; Teaching from Andromeda</b>  <i>By Alex Collier (90 mins - \$20)</i>  In his first U.S. appearance in over six years, Alex Collier, author of <i>Defending Sacred Ground</i>, discusses his extraordinary contacts with a race of extraterrestrials from the constellation of Andromeda. An ocean of amazing information poured into our world from beyond the veil until the contacts began to dry up... With slides and audiotape, Mark will share many of the contacts received over the years.</p>
<p><b>The Rush towards Disclosure: Aliens Among us - The Maurizio Cavallo Story</b> - <i>By Paola Harris, M.Ed. (90 mins - \$20)</i>  The fact that 2007 has brought many accounts of "human type Aliens" who are integrated among us and trying to warn us of coming events is important. Visitations are accelerating to a point of having to deal with an imminent extraterrestrial presence in the realm of public policy. The Maurizio Cavallo case has startling images and evidence that demonstrates this point. We are receiving messages from the stars!</p>	<p><b>A New Way of Thinking About Ancient Prophecy</b>  <i>By Dr. Elizabeth Rauscher (90 mins - \$20)</i>  A new era of concern about man's role in relationship to his (her) environment and their meaning of life is under major consideration. Some of the major clues about this new way of thinking can be found in indigenous cultures. Dr Rauscher lived with the Hopi and also spent time with the Navajo. She discusses the spiritual domain, psychic healing, shamanism, sacred knowledge &amp; Hopi prophecies.</p>
